Invitation to Tour TTC's Fiber Innovation Center and Labs

The Textile Technology Center is excited to invite you to tour the Fiber Innovation Center and labs in Harney Hall on November 6th. This is a unique opportunity to explore our facilities and see firsthand the resources available to you for textile innovation, manufacturing, and employee education.

Date: Thursday, November 6th

Time: 10:00 – 11:00 am

Location: Harney Hall

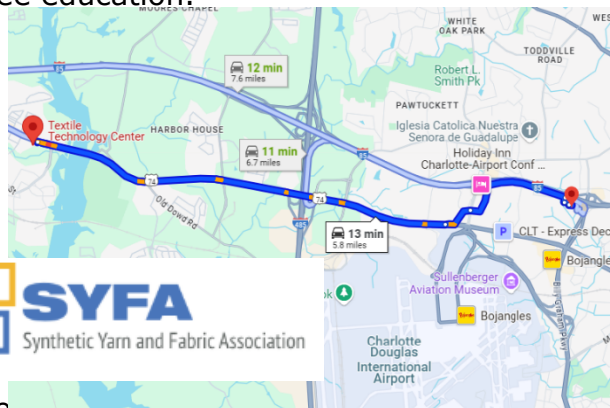

located on the Kimbrell Campus of Gaston College in Belmont, NC

The tour will occur prior to the start of **SYFA's Fall Conference**.

The Synthetic Yarn and Fabric Assoc

7 at the Sheraton Charlotte Airport Hotel, a short 15 minute drive from the tour. For conference registration, please use this link: <https://www.thesyfa.org/event/2025-syfa-spring-conference/>.

Completed in 2025, the Fiber Innovation Center is at the forefront of advancements in fiber science, focusing on developing new materials and technologies for wide-ranging applications.

During the tour, you will visit specialized labs, including:

- **Harney Hall (left):** staple yarn processing, fabric formation, dyeing and finishing, analytical chemistry, physical testing, microscopy, and flammability
- **Fiber Innovation Center (FIC) right):** fiber extrusion, yarn formation, and lab support

We look forward to welcoming you and showcasing the cutting-edge resources for textile innovation. Please **register** using this link <https://forms.office.com/r/ApOPENTnSc>
